Tony

You are national--international --treasure. And we are depending upon your sanity and smarts.

We can have you and [REDACTED] (b) (6) over for dinner on the porch and order in from [REDACTED] (b) (6) or something. Anytime you are ready.

Ezekiel J. Emanuel, M.D., Ph.D.

Vice Provost of Global Initiatives

Chair, Department of Medical Ethics and Health Policy (b) (6)

Levy University Professor

Co-Director, Healthcare Transformation Institute

Perelman School of Medicine and The Wharton School

University of Pennsylvania

Phone: (b) (6)

Zeke:

Thanks for the note. Indeed, we do agree. (b) (6)

I look forward to chatting with you some time soon.

Best,

Tony

Sorry for misreading what you said--I think maybe I overintepreted--lots of finance people called and seemed like I was a downer compared to you. But I think we agree.

Are you and (b) (6) doing okay?

Zeke:

I did not "strongly" endorse it. I specifically said that it was not a knockout drug and was only a baby step in the direction of developing more and better drugs. I said that it was important because it proved in a well-powered, randomized, placebo-controlled clinical trial that one can suppress the virus enough to see a clinical effect, as modest as the effect was. I do not think I forced anything.

Happy to chat with you about it.

Best,

Tony

Tony,

I hope you and (b) (6) are doing well. You are doing an amazing job under difficult circumstances. And just know we prefer the "real" Tony to the Brad Pitt version!!!

I am a bit perplexed by your seeming strong endorsement of remdesivir. Was it just a bit forced?

My reading was the data were weak and in normal times for normal disease it is not enough to approve. And very unlikely to really impact COVID-19 disease pattern--regardless of supply issues.

Stay safe
